

**CITY OF BENNINGTON
NOVEMBER 2020 NEWSLETTER**

Hope this finds everyone well! It is a little difficult to make too many announcements when frankly, most things are simply not going on this year. It is my hope that things will return very soon to normal activities. I hope everyone has a wonderful, family filled Thanksgiving! It will be here before we know it.

Have you ever been interested in serving on the city council? If so, I would like to invite you to come to the next city council meeting on November 9th and some questions to ask yourself so that you might answer these questions for the current council is: Why do you want to serve on the council? What special talents could you bring to the council? Have you served in a capacity like this before? Could you do what is best for the city above your own personal thoughts? If you answered yes to any of those questions, please come and share your thoughts with the council. We have a vacant seat that will need to be filled and the council would like to have any interested persons come on November 9th!!!!!!!!!!!!!!

We had a positive response to our fall dump days in the new location by the recycle center. Thank you to Dustin Murk who worked hard getting the area prepared for the roll off carts to be

placed and for putting up the fence and keeping the area manned on the weekends. We appreciate you Dustin!

Just a reminder that the new payment box has been installed and is ready for use! Please drop your payments for water or your completed building permit applications in the box!

Remember the limb site is where to haul all your leaves, garden waste and tree limbs. It is that time of year when many will be using the area. Please remember if you bring your leaves in bags, you must empty them in the appropriate pile and take your bags or any trash you may have raked up. The state inspects the area periodically and will shut down sites that do not comply with the rules. Thank you for your cooperation!!!!

We follow deer tracks
in the mud, pretending that
we too are wild beasts.

Helicopters spin
in squadrons from our maple—
I almost caught one!
