

**City of Bennington
March 2021 Newsletter**

Hope everyone is well and enjoying the little bit of spring like weather we have gotten after the deep freeze we were in.

The animal clinic was a success on February 20th! There is not much time left before the \$1.00 per week fine will be added for each animal not tagged by March 1st! If you have animals, they must be registered with the city and we must have proof of rabies vaccinations on file! Many of you have taken care of this and we appreciate it!

Please use the new drop box for payments from this point forward. The slot on the door does not close automatically any longer and you cannot close it from the outside once you have pushed it open. It is safer to have your payments in the box anyway. The door slot was open all night when we had the very cold weather. Thank you!!!

*******ATTENTION*******

In the next couple months, we will be writing up ALL inoperable vehicles around the city. There are some that have been here for years and have not moved, others have not been here as long. If you have a vehicle that is not tagged, does not run, please remove it from the city limits. We will be in contact soon to get the problem taken care of. Thank you for your cooperation!!!
