

## MAY 2022 NEWSLETTER

I will be putting the Consumer Confidence Water Report on the website very soon. If you need a hard copy, please request one from the city office and we can mail you one or you may come and pick one up between 8am and 4pm, Monday through Friday.

The city council has hired Jeff Scheele to be the city's new Compliance Officer/Zoning administrator. Most projects within the city require an approved building permit. Jeff will be the new contact. You may print off building permit applications online or you can pick one up in the city office. Jeff will also be writing up any violations around town according to the city ordinance book. Jeff can be reached at 785-452-8079. Congratulations Jeff!!

By the time you get this newsletter, city dump days will be rolling along. Please take advantage of this free event starting Saturday April 30 through Sunday May 8th to get rid of junk and things you don't want or need any longer. Tires will be accepted, just make sure the rims are not left on please. No items with Freon will be accepted. This is for City residents only.
